Healthcare
A Brady Business  BRADY

Where positive identification
meets safe, efficient patient care.

The New PDC Healthcare

PDC Healthcare is the result of the merger of two industry leaders and pioneers in healthcare: Precision Dynamics Corporation (PDC) and The St. John Companies.

PDC Healthcare has been a trusted partner to healthcare organisations for more than 55 years, providing superior identification solutions for the safe and efficient management of patients. While we've refreshed our brand and visual identity, our company's founding principles of superior service, quality, and innovation remain stronger than ever!

Positive Identification is the Key to Patient Safety

Positive patient identification provides the foundation for patient safety through the systematic prevention of manual errors. It has an effect on virtually every aspect of clinical care:

- The patient experience
- The efficiency and convenience of the patient care process
- The satisfaction of nurses, physicians, and staff

These outcomes can all be tied back to one thing: The quality of your identification solution. PDC Healthcare offers the most extensive selection of wristband and label solutions in healthcare to help protect patients and improve clinical outcomes at critical points in the delivery of care.

More hospitals trust PDC Healthcare products to accurately identify, track, and connect their patients to all major hospital functions—from admissions to discharge. Designed with both patient and caregiver in mind, our products help improve efficiencies, while saving time and resources so caregivers can spend more time on patient care.

Our products are also designed and tested to high medical-grade quality standards for maximum safety, strength, and durability (see p. 5). Each product is born from thousands of hours of rigorous research and testing to provide the most reliable and highest performing products available.

Service You Can Count On. Easy Ordering Options. Brand New Website.

PDC Healthcare understands the business challenges of today's healthcare organisations like no other company.

Our customers receive expert consultation and service from seasoned specialists in the industry. Our integrated Customer Service and Account Management Team provide 100% customer satisfaction—before, during, and after your order.

Through multiple ordering options, PDC Healthcare is fully accessible to our clients and always open for business.

Toll Free Customer Service

Your dedicated PDC Healthcare Customer Service Representative will handle every stage of your ordering process knowledgeably, efficiently, and courteously. Call +32 67 89 56 56 or email info@pdchealthcare.eu today.

New Website

Get 24/7 access to the products and services you need. Our new www.pdchealthcare.eu website integrates the products that were on separate sites for PDC, St. John, TimeMed, and Pharmex® for a streamlined user experience. With a modern look and enhanced features, the website provides improved navigation, search tools.

A passion for patient safety

With as many as one million people injured from errors during hospital treatment each year,* patient safety continues to be among the healthcare industry's top priorities. PDC Healthcare's positive identification solutions help healthcare institutions protect patients, reduce risk, and adopt best practices to achieve compliance with important regulations, as listed below. In fact, the top-rated and safest hospitals in the U.S. choose and rely on PDC Healthcare products and services.**

■ The Joint Commission International*** Patient Safety Goals:

Goal 1 Identify Patients Correctly

Goal 2 Improve Effective Communication

Goal 3 Improve the Safety of High-Alert Medications

Goal 4 Ensure Correct-Site, Correct-Procedure, Correct-Patient Surgery

Goal 6 Reduce the Risk of Patient Harm Resulting from Falls

■ "World Health Organisation" (WHO) Patient Safety Solutions****:

- Solution 2: Patient Identification
- Solution 3: Communication During Patient Hand-Overs

■ The "European Council" Recommendations on Patient Safety

■ The "National Patient Safety Agency" (England) Safer Practice Notice

■ The "Haute Autorité de Santé - HAS" (France) certification manual V2010 for hospitals

■ The "Ministero della salute" (Italy) publication on the clinical risk management

■ The "Department of Health" (Australia) patient safety indicators

■ The "Department of Health" (Hong Kong) recommendations to improve patient safety and reduce medical errors.

■ Food and Drug Administration (FDA) for patient identification

■ American Health Association (AHA) to reduce the risk of lost or transferred data

Identification Solutions that Support You

You can't deliver patient care safely and effectively without a system in place that provides accurate and timely identification. PDC Healthcare products reach every touch point in the delivery of care—from admissions to discharge. We continue to innovate with new solutions for all major areas of healthcare, including:

- Patient Identification Management
- Patient Safety & Privacy Management
- Electronic Health Record (EHR)
- Bar Code Point-of-Care
- Blood Administration
- Specimen Collection & Management
- Computerised Physician Order Entry (CPOE)
- Revenue Cycle Management
- Patient Alert Standardisation
- Visitor & Vendor Management
- Patient Flow Management
- Automated Management of Medication Guides

****WHO - Patient Safety Solutions, May 2007

Media Matters™ in so many ways

As a gatekeeper for quality care, the wristband and label are the only items that remain with a patient throughout his/her hospital stay, connecting the patient to all major hospital functions.

The right wristband and label media can determine the success or failure of your patient ID system. Don't risk patient safety by using inferior ID products, or products not designed for healthcare application.

Delivering medical grade quality, PDC Healthcare media provides superior:

- 1. Safety & Security** with multiple closure options and tamper-evident material that prevent the transfer of wristbands, while meeting critical regulatory compliances.

- 6. Printing Performance** to facilitate jam-free printing through smooth and seamless feedability—every time—while prolonging the print head.

- 2. Compatibility** with each unique application, products are designed to meet specific environmental requirements (NICU, laboratory, long-term care, x-ray, etc.).

- 7. Workflow Efficiency** Streamline steps at point-of-care, providing convenience for caregivers so they can focus more time on caring for their patients.

- 3. Scan Reliability** to deliver consistently accurate scan rates for positive patient identification and tracking.

- 8. Selection of Wristband Sizes** to fit all shapes and sizes of patients, from the smallest newborn babies to the largest adults.

- 4. Durability** to stand up to the test of time and maintain effectiveness throughout the patient's full stay.

- 9. Resistance to Common Fluids** including 70% Isopropyl alcohol, alkaline detergent, hand lotion, hand sanitizer, and Iodine.

- 5. Comfort** with smooth, soft materials that have contoured edges that are safe and comfortable against even the most delicate patients' skin.

- 10. Antimicrobial Coating** protects wristbands from non-pathogenic, odor-causing bacteria, preventing degradation and discoloration, which can effect the legibility of patient information, the accuracy of bar code scanning, and the comfort and satisfaction of patients.

The Patient Safety Program

The Patient Safety Program is a set of processes and tools that guides you to implement a working identification system that will allow you to check the identity of patients and match the correct patient with the correct care.

The Patient Safety Education System is organised in different modules, each one dealing with a hospital ward. There is also a “patient identification improvement pack”, dealing with additional arguments that can improve the identification system in every area of the hospital.

The admissions department module 1

How to implement the identification process in the admissions department. Which data are relevant and how to apply them correctly on the identification wristband.

The emergency department module 2

How to implement the identification process in the emergency department. Which data are relevant and how to conduct triage through colour-coded wristbands.

The maternity department module 3

How to implement the identification process in the maternity department and how to match the right mother with the right baby. Which processes and precautions should be taken before and after the birth.

The wards module 4

How to implement the identification process in hospital wards. How to deal with patient identification during standard procedures and in case of identification issues.

The blood bank module 5

How to implement the identification process in the blood bank. How to match the right blood with the right patient ensuring maximum safety throughout the blood transfusion process.

The morgue module 6

How to implement the identification process in the mortuary. Which processes provide peace-of-mind to death-care professionals by assuring a caring touch, while meeting the respectful standards desired in caring for the deceased.

Colour coded wristbands module A

How to implement a colour coding system. What kind of highly visible, colour-specific identification are used to warn caregivers of special precautions.

Communication module B

How to implement a communication flow in the hospital and who is concerned. How to communicate with patients and medical staff to improve patient identification processes.

Bar Code ID Solutions

PDC Healthcare developed the first Bar Code Wristband System in 1984. Today, more hospitals choose our Bar Code Wristbands than any other system in the world. Before choosing a system, consider PDC Healthcare’s experience, expertise, and proven advantages. We offer the highest quality, most reliable Bar Code ID Solutions in healthcare today that meet important patient safety regulatory requirements, as listed below.

Choose from the following products:

- Thermal Printer Wristbands & Tags print in mere seconds through direct thermal printers.
- Laser Printer Wristbands & Labels provide excellent printability and scannability, while protecting printed information from smearing or bleeding.
- Insert Style Wristbands feature convenient pockets to protect patient data.

Our Bar Code ID Solutions provide medical-grade quality for maximum durability, safety, and security.

Bar Code ID Solutions help healthcare organisations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission International* Patient Safety Goals:**
Goal 1 Identify Patients Correctly
Goal 2 Improve Effective Communication
Goal 4 Ensure Correct-Site, Correct-Procedure, Correct-Patient Surgery
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

BAR CODE ID SOLUTIONS

BAR CODE SUPER SOFT DIRECT THERMAL WRISTBANDS

NEW

Maximum Comfort Meets Maximum Performance

Our new ComfortBand™ is specially designed for patients with delicate skin. It provides superior comfort with softer material and a contoured shape. ComfortBand™ is available in multiple sizes to meet the needs of the entire patient population, from geriatrics to infants.

ComfortBand™ Features:

- Softer material is comfortable for even the most delicate skin
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Tamperproof double-post snap closure for security (Adult includes double-post snaps; Infants include single-post heart-shaped snaps.)
- Contour-shaped band comfortably conforms to the wrist
- Large information area

For Alert Snap options,
see pages 47–48.

ComfortBand™ Performance:

- Patented PermaPrint® surface provides best imprint quality, maximum resistance to solvents, and seamless printing
- Supports text, linear and 2D bar codes, photo ID and graphics
- Ensures crisp, clear bar codes for easy scannability
- Compatible with most direct thermal printers

BAR CODE ID SOLUTIONS

BAR CODE COLOUR LASER WRISTBANDS

ClarID™ Colour Laser Wristbands – Specially designed for VA Hospitals to print colour laser patient ID wristbands on demand.

NEW

PDC Healthcare introduces ClarID™ colour laser patient ID wristbands which print on-demand using a colour laser printer to print patient photos, colour code alerts, bar codes, and text directly onto the wristband. This maximizes patient safety by providing bar code automated identification and supporting colour code standardisation initiatives.

If you're already using a comparable laser printable ID product, you can seamlessly switch to ClarID™ without IT reformatting..

ClarID™ Wristband with Adhesive Closure

- Scans first time, every time
- Jam-Free™ printing!
- Quick and easy application streamlines the admission process
- Tamper-evident adhesive closure prevents transfer from one patient to another
- Optional single post snap closure can be ordered separately to provide an extra measure of security
- Extra smooth, soft material and contoured edges for patient comfort. Latex-free & Phthalate-free
- Use Ident-Alert® colour coded alert snaps for special precautions (sold separately). Ideal when new alerts are identified to prevent re-banding a patient
- Can be used with foil tamper-evident branch insignia label which leaves behind the words "VOID" when removed.

Introducing DuraSoft®

Inspired Softness.

Discover DuraSoft®, a softer laser ID solution inspired by customer demand for a lightweight laser wristband that's more comfortable for patients and soft enough for even the most delicate skin.

Practical Convenience.

Without a stiff, cumbersome laminate overlay, applying DuraSoft® to patients is fast and easy, allowing caregivers more time for patient care. DuraSoft® streamlines steps in the admissions process to reduce wait time and increase workflow efficiency. And because it's paper-based, DuraSoft® performs like a saint in virtually any laser printer.

DuraSoft® Laser Patient ID System: Easy as 1-2-3

1. Print

Easy drop-in replacement works with your existing laser printer and format so there's little to no change needed. Jam Free™ printing in virtually any laser printer.

2. Remove

- + No laminate shields to fold and stick
- + No assembly needed

= Quick & Easy

3. Apply

Fast and easy application saves nursing and admission staff time to improve workflow efficiency and allow more time for patient care.

ALL WRISTBANDS ARE LATEX-FREE

BAR CODE ID SOLUTIONS

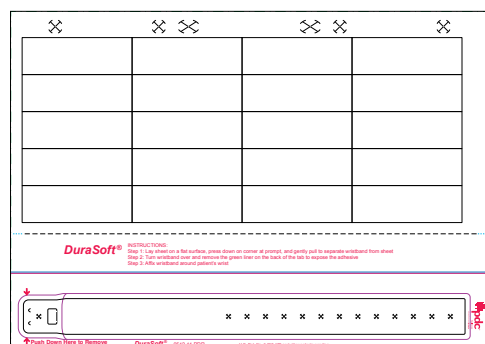

BAR CODE LASER PRINTER WRISTBANDS & LABELS

DuraSoft® Features.

- Ultra soft and smooth wristband material provides patient comfort and durability for up to 15 days
- Quick and easy application saves nursing and admission staff time to improve workflow efficiencies
- Easy drop-in replacement works with your existing laser printer system and format so there's little to no change required.
- Secure, tamper-evident adhesive closure
- Patented design featuring unique cross-cuts provides additional options:
 - Optional colour-coded alert snaps to identify special-risk patients (See Page 47)
 - Optional plastic snap closure for additional security (See page 10)
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Superior Bar Code Scanning. Excellent scan rates for linear and 2D bar codes
- Moisture-resistant. Specially designed material resists moisture, alcohol, and hand sanitizer to preserve patient data and bar codes. Latex-free and Phthalate-free.
- Jam Free™ printing with laser printers
- Standard file holes make it easy to add the laser sheet to a chart or binder

Imprinter & Write-on Wristbands

Imprinting patient information on wristbands is an important standard for many Healthcare organisations using blue card embossers. PDC Healthcare's Imprinter & Write-on Wristbands feature a specially designed ClearImage® imprinter surface which protects handwritten and embossed information.

PDC Healthcare developed the first Imprinter Wristband in 1982, and we now offer the most extensive line available in adult, adult/pediatric, and infant sizes. Choose from multiple materials, including soft vinyl, tri-laminate, and non-stretch polyester.

Choice of closures includes snap, adhesive, and re-adjustable. Imprinter & Write-on Wristbands can be imprinted with custom information upon request.

Imprinter & Write-on Wristbands provide medical-grade quality for maximum durability, safety, and security.

Insert Wristbands & Cards

Protect valuable patient information with PDC Healthcare’s Insert Wristbands. They feature convenient pockets to protect patient data on insert cards and labels from smearing, wrinkling, or scratching.

Select from bands made from multiple materials, including smooth soft vinyl and tri-laminate which will not scratch delicate skin. Choose from patented SecurSnap® adhesive or metal closures and five sizes: Adult, Adult/Pediatric, Extra-Wide, Super-Wide, and Infant.

Insert Wristbands & Cards provide medical-grade quality for maximum durability, safety, and security.

Insert Wristbands & Cards help healthcare organisations meet applicable patient safety regulatory guidelines, including:

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Mother–Infant Wristbands

Maternity and NICU departments face the daily challenge of caring for the most valuable and fragile patients. To ensure that every newborn is properly identified and matched to their mother, hospitals place their trust in PDC Healthcare’s line of Mother–Infant Identification Wristbands.

Wristbands are available in two–part, three–part, and four–part designs. Choose from Insert Style (with protective pockets for insert cards) or Imprinter Style (for printing and writing directly on the wristband). Wristbands feature smooth, soft material, which is comfortable and safe for sensitive skin. They can be ordered with the following closure options: non–transferable SecurSnap®, adhesive, or readjustable.

Precision® Neonatal Wristbands meet the needs of patients in the maternity and NICU Departments. PDC Healthcare’s new Bundle of Joy™ Wristbands proudly show family members’ relation to their newest addition.

Mother–Infant Wristbands provide medical–grade quality for maximum durability, safety, and security.

Mother–Infant Wristbands help healthcare organisations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission International* Patient Safety Goals:**

Goal 1 Identify Patients Correctly

Goal 2 Improve Effective Communication

Goal 4 Ensure Correct–Site, Correct–Procedure, Correct–Patient Surgery

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.

- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Consecutive Numbering

Mother-Father-Baby (OB) Bands
Consecutive numbering is available in seven formats below.
All bands within each set are imprinted with identical numbers. Numbers must appear next to the clip seal.

1. Four digits (0001 to 9999)*
2. Five digits (00001 to 99999)*
3. Six digits (000001 to 999999)*
4. Alpha followed by five digits (A00001 to Z99999)
5. Digit, alpha, four digits (0A0001 to 9Z9999)
6. Double alpha followed by four digits (AA0001 to ZZ9999)
7. Single alpha followed by four digits (A0001 to Z9999)

*The leading zeros can be suppressed if desired.

Precision® Neonatal Wristbands

The Precision® Neonatal Wristband helps meet the special needs of patients in the maternity and NICU Departments.
Available in two sizes, this movable ID band offers newborns and preemies the highest quality, convenience, and comfort.

- Constructed of soft, comfortable foam
- Secures with hook & loop Velcro® style closure
- No cutting necessary
- Blank ID panel accepts handwritten information or label (up to) 6,6 cm
- Easily repositioned on wrist or ankle to accommodate IV site changes
- Ensures ID band is present on limb instead of taped to incubator, guaranteeing positive patient identification

Write-On & Short Stay® Wristbands

Short-term hospital applications such as the ER, same-day surgery, and outpatient require patient identification that is accurate, reliable, economical and efficient for busy, fast-paced environments.

PDC Healthcare's flexible and versatile Write-On and Short Stay® Wristbands allow for easy application of important patient data. Our Write-On & Short Stay® Wristbands are offered in a wide range of materials and colours and are available with either snap or adhesive style closures. Wristbands provide medical-grade quality for maximum durability, safety, and security.

Write-On & Short Stay® Wristbands help healthcare organisations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission International* Patient Safety Goals:**

Goal 1 Identify Patients Correctly

Goal 2 Improve Effective Communication

Goal 4 Ensure Correct-Site, Correct-Procedure, Correct-Patient Surgery

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Alert Bands®

The Healthcare community has recognised the urgent need for standardized colour code indicators to identify special risk patients. Reports from staff members using colour code indicators demonstrate a high satisfaction rate, providing a positive impact on patient safety.

PDC Healthcare's Alert Bands® and Snaps feature highly-visible, colour-specific identification alerts to warn caregivers of special precautions. They're a quick, easy, and cost-effective way to meet state standardisation. PDC Healthcare's Alert Bands® and Snaps are latex-free.

Many countries have already implemented standardisation protocols. Does your hospital have a standardised system?

Visit www.patientsafetyprogram.com today to view important country information colour coding initiatives that may effect your hospital.

Alert Bands® provide medical-grade quality for maximum durability, safety, and security.

Alert Wristbands help healthcare organisations meet applicable patient safety regulatory guidelines, including:

■ The Joint Commission International* Patient Safety Goals:

- Goal 1** Identify Patients Correctly
- Goal 2** Improve Effective Communication
- Goal 3** Improve the Safety of High-Alert Medications
- Goal 4** Ensure Correct-Site, Correct-Procedure, Correct-Patient Surgery
- Goal 6** Reduce the Risk of Patient Harm Resulting from Falls

■ American Health Association (AHA): to prevent the chance of lost or transferred data.

ALERT BANDS®

IDENT-ALERT® COLOUR CODED SNAPS

Ident-Alert® Colour Coded Snaps

Accurate patient classification is a snap with Ident-Alert® Colour Coded Snaps from PDC Healthcare. Use with our snap closure wristbands to quickly and cost-effectively identify special patient conditions.

- Provide convenience by allowing caregivers to classify multiple patient conditions—all on one PDC Healthcare wristband
- Soft, flexible material with rounded edges for patient comfort
- Enhance patient safety with large, easy-to-read text that identifies at-risk patients
- Locking SecurSnap® safety feature prevents transfer of alert to another patient
- If there is a change in a patient's condition, the Ident-Alert® Snap can be removed using safety scissors without destroying the admitting wristband
- Blank and customisation in your national language available

For blank and custom imprint options, call +32 67 89 56 56.

Tape Dispenser — the perfect partner for all alert labels!

Single and Multiple Roll Dispenser	
Product Number	Description
HD-2	Hand-held tape and label dispenser. Holds a variety of tape and/or label products up to a total of 2,9 cm. Includes 2 spacers and a plastic clip to lock dispenser. Can be used as a single or multiple roll dispenser with pre-dispensing label mode.

Alert Logos:

Use custom logos to communicate specific alert conditions. Alert logos can be printed on most PDC Healthcare wristbands; however, we recommend using the Sentry® SuperBand® series (page 40).

Blood Bands & Forms

According to the FDA, there is an average of 414 transfusion errors in the U.S. each year, or about one per 38,000 transfusions. Match the right patient to the right blood every time with PDC Healthcare's Blood Bands and Forms, which use alpha and numeric serialisation for positive identification.

Securline® Hybrid Bar Code Blood Bands: Use bar code and serialised alphanumeric codes to automatically match the right patient to the right blood. Provides superior scanability, safety, and security.

Securline® Hybrid Blood Band and Blood Band Plus: Soft tri-laminate wristband features 23 easy-peel labels and tamperproof SecurSnap® closure for maximum safety. Blood Band Plus features a peel-off adhesive tail that applies to draw tubes.

Blood Bands provide medical-grade quality for maximum durability, safety, and security.

Blood Bands help healthcare organisations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission International* Patient Safety Goals:**

Goal 1 Identify Patients Correctly

Goal 2 Improve Effective Communication

Goal 4 Ensure Correct-Site, Correct-Procedure, Correct-Patient Surgery

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.

- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

* Joint Commission International – International Patient Safety Goals, 09 February 2012

BLOOD BANDS

BAR CODE HYBRID BLOOD BANDS

Bar Code Hybrid Blood Bands

- Larger font size
- Fits adults & pediatrics
- Patented dual-purpose, hybrid style lets you handwrite information or use with your LIS label
 - Standardise and consolidate to a single blood band, even if you have multiple labs
 - Downtime solution allows you to hand write information on the band as a back-up method
- Designed for inpatient or outpatient use
- Laminate shield protects patient information and bar code from water or solvents for accurate bar code scanning
- Advanced material resists moisture, alcohol and hand sanitizer to preserve bar code integrity for accurate scanning
- V-Notch™ patient ID label ensures proper placement on BD Vacutainer for bar code scanning and visibility of tube colour
- Reattachable! Reattach blood band after surgery using our Xtender Band™ 5062 (See page 46.)

Securline® Bar Code Hybrid Blood Bands help provide maximum safety and security!

Using bar code and serialised alphanumeric codes, the Securline® Bar Code Hybrid Blood Band accurately matches the right patient to the right blood, ensuring maximum safety throughout the blood transfusion process. It provides unrivaled scanability, safety, and security!

- Streamlines the blood transfusion process and improves patient safety by reducing human errors related to patient identification
- Saves time and money by streamlining the patient ID and blood transfusion workflow
- Integrates seamlessly with existing blood bank system so there's no IT involvement or capital investment
- Custom imprinting available

CUSTOM WRISTBANDS

CUSTOM WRISTBANDS & ARTWORK SPECIFICATIONS

Custom Wristbands

Customise your wristband by having PDC Healthcare print your hospital name, logo, message, or choose from our Funband® characters listed below. Simply call **+32 67 89 56 56** to get your order started. Please note the following guidelines:

- Custom imprinted products are not returnable
- Sample layout must accompany order
- Most wristbands can be imprinted with hospital name, serial number, logo, etc.
- Repeat imprints ship within 10 working days
- New imprints are shipped within 10 working days after artwork approval
- Please note that wristband artwork on file will be discarded after two years of account inactivity
- **Minimum order: 2 boxes per imprint per wristband style**
- **Tyvek custom minimum 5 boxes per imprint**
- Pricing: Call Customer Service for pricing information

Examples of custom printing options

Funband® Characters

Customise your pediatric wristbands with Funband® characters. These friendly faces are sure to create many smiles in the pediatric unit! Choose from 9 characters listed below. Contact customer service at **+32 67 89 56 56** for pricing and custom imprint information.

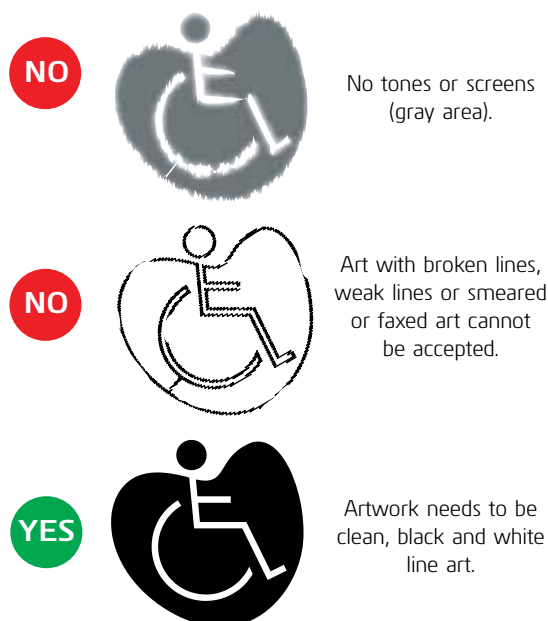

Artwork Specifications

Logos: Please submit **CLEAN, BLACK AND WHITE LINE ART**. Tones and screens need to be converted to solids. Broken lines, weak lines, or smeared art cannot be imprinted. **WE CANNOT USE FAXED ARTWORK OR LOGOS COPIED FROM A WEB PAGE**, although our art department may be able to fix lower quality artwork to a certain extent. If black and white line art is not supplied for logos and special designs, you may be billed for art charges.

For customers who wish to send digital artwork via e-mail, we accept these standard graphic formats: eps, ai, tiff, and jpeg (300dpi). Illustrator files and Mac format are preferred. Please convert all text to outlines. E-mail to info@pdchealthcare.eu. Please include your organisation/business name, contact name, and phone number in your e-mail message.

Why do you need black and white line art? The custom printing process involves creating a printing plate of your solid artwork to print onto the wristband. Think of a rubber stamp. A rubber stamp only prints one solid colour impression onto the surface.

We cannot use logos/artwork that are copied from a web page as these images are low resolution and will produce a jagged, pixelated imprint.

Quality Process = Quality Care

Every company talks about quality. But not every company makes the kind of investments in people, process improvement, and technology that PDC Healthcare does to ensure unmatched quality in all that we do.

As part of our mission to provide defect-free, medical-grade quality products, every product we produce is born of thousands of hours of rigorous research and testing to provide the most durable, reliable, safest, and highest-performing products available.

In addition, our company constantly strives to understand our customers' needs through vehicles such as our comprehensive Customer Survey Program. Through close and continuous interaction between customer and company, we can better ensure that your needs and views are clearly understood and fulfilled.

That's been the PDC Healthcare way for more than 55 years.

Mission Statement

PDC connects people, products, and technology through innovative ID solutions that deliver superior customer experiences worldwide.
